## INTERMITIONAL SEARCH REPORT

Internation pplication No PCT/EP 03/13231

		<del></del>				
A. CLASSI IPC 7	IFICATION OF SUBJECT MATTER C12N9/02 C12N15/81 C12N1/19	C12P7/06				
According to International Patent Classification (IPC) or to both national classification and IPC						
B. FIELDS	SEARCHED					
Minimum documentation searched (classification system followed by classification symbols)  IPC 7 C12P C12N						
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched						
Electronic d	lata base consulted during the international search (name of data base	se and, where practical, search terms used	d)			
C. DOCUMENTS CONSIDERED TO BE RELEVANT  Category Citation of document, with indication, where appropriate, of the relevant passages  X VALVERDE F ET AL: "Engineering a central metabolic pathway: glycolysis with no net phosphorylation in an Escherichia coli gap mutant complemented with a plant GapN gene"  FERS. LETTERS. ELSEVIER SCIENCE PURI ISHERS						
C. DOCUM	ENTS CONSIDERED TO BE RELEVANT					
Category °	Citation of document, with indication, where appropriate, of the rela	evant passages	Relevant to claim No.			
X	metabolic pathway: glycolysis wit phosphorylation in an Escherichia mutant complemented with a plant gene" FEBS LETTERS, ELSEVIER SCIENCE PUAMSTERDAM, NL, vol. 449, no. 2-3, 23 April 1999 (1999-04-23), pages XP004259550 ISSN: 0014-5793 cited in the application page 155, paragraph 1	ch no net a coli gap GapN JBLISHERS,				
	her documents are listed in the continuation of box C.	Patent family members are listed	in annex.			
"A" document defining the general state of the art which is not considered to be of particular relevance  "E" earlier document but published on or after the international filling date  "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)  "O" document referring to an oral disclosure, use, exhibition or other means  "P" document published prior to the international filling date but later than the priority date claimed		T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention  "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.  "&" document member of the same patent family				
Date of the actual completion of the International search  17 March 2004		Date of mailing of the International search report 02/04/2004				
Name and	malling address of the ICA	Authorized officer				
Name and mailing address of the ISA  European Patent Office, P.B. 5818 Patentlaan 2  NL – 2280 HV Rijswijk  Tel. (+31-70) 340-2040, Tx. 31 651 epo nl, Fax: (+31-70) 340-3016		Authorized officer As lund, J
